

Chair's Opening Remarks and LatAm State of Play |

10:00 - 10:10

Part 1 | Monetizing Services: Capitalizing on Opportunities from the Consumer to the Enterprise

- What progress has been made towards 5G in Latin America
- COVID-19: staller or driver of a digital revolution
- Identifying opportunities and overcoming challenges

Sponsor Case Study | Driving Transformation with a 5G Network

10:10 - 10:25

Part 1 | Monetizing Services: Capitalizing on Opportunities from the Consumer to the Enterprise

- Supporting economic growth with 5G connections
- 5G apps and services that will boost connections and drive investments
- Consumer and enterprise opportunities: developing strategies to monetise services

Enterprise Services Panel Discussion | Monetising Services for the 4th Industrial Revolution

10:25 - 10:55

Part 1 | Monetizing Services: Capitalizing on Opportunities from the Consumer to the Enterprise

- Private-LTE and Private-5G: what are the opportunities for the region?
- Mining, Manufacturing, Agriculture and more: the industries primed for connectivity
- Industrial IoT and connected industries: where are the most exciting opportunities
- Do enterprises seek 5G connectivity or will LTE lead the revolution?

Understanding the Latin America Consumer

10:55 - 11:10

Part 1 | Monetizing Services: Capitalizing on Opportunities from the Consumer to the Enterprise

- What do consumers want from their network?
- COVID-19 and the consumer: how has the coronavirus impacted consumers
- Developing products for the consumer: what do consumers want from their connections and do they need 5G?
- 5G devices: availability and affordability for the Latin American consumer

Speaker Q&A |

11:10 - 11:25

Part 1 | Monetizing Services: Capitalizing on Opportunities from the Consumer to the Enterprise

In this live session, our speakers will come together to answer your questions.

Lunch Break

11:25 - 13:00

Regulator Address | 5G Spectrum Auctions to Ignite New Opportunities

13:00 - 13:15

Part 2 | Spectrum and Regulation in Latin America: Igniting the Fires for an LTE and 5G Revolution

- What progress has there been to open spectrum for 5G
- Defining the auction: challenges and opportunities for the regulator
- Promoting innovation from telecom operators in a challenging time

Sponsor Address | Preparing Spectrum Availabilities for 5G

13:15 - 13:30

Part 2 | Spectrum and Regulation in Latin America: Igniting the Fires for an LTE and 5G Revolution

- Rearranging spectrum use to unleash 5G connectivity
- Pricing spectrum to drive new opportunity
- Preparing regulation that supports open and connected architecture

Operator Address | How Governments Can Support Operator Investments

13:30 - 13:45

Part 2 | Spectrum and Regulation in Latin America: Igniting the Fires for an LTE and 5G Revolution

- What do operators need in order to drive investment into 5G
- Promoting cooperation: how regulators and operators can work together to drive competition and growth
- Overcoming regulatory hurdles: developing a coordinated approach to connectivity

Panel Discussion | Unleashing Spectrum to Encourage 5G Opportunities

13:45 - 14:15

Part 2 | Spectrum and Regulation in Latin America: Igniting the Fires for an LTE and 5G Revolution

Speaker Q&A |

14:15 - 14:30

Part 2 | Spectrum and Regulation in Latin America: Igniting the Fires for an LTE and 5G Revolution

In this live session, our speakers will come together to answer your questions.

End of Latin America Digital Symposium Day 1

14:30 - 14:35

Part 2 | Spectrum and Regulation in Latin America: Igniting the Fires for an LTE and 5G Revolution

SCHEDULE

DIGITAL SYMPOSIUM DAY 1: 5G LATIN AMERICA - 27/04/2021

5G Latin America

27 & 29 April 2021
Digital Symposium

TIME	PART 1 MONETIZING SERVICES: CAPITALIZING ON OPPORTUNITIES FROM THE CONSUMER TO THE ENTERPRISE	PART 2 SPECTRUM AND REGULATION IN LATIN AMERICA: IGNITING THE FIRES FOR AN LTE AND 5G REVOLUTION
10:00	<p>10:00 - Chair's Opening Remarks and LatAm State of Play </p> <p>10:10 - Sponsor Case Study Driving Transformation with a 5G Network</p> <p>10:25 - Enterprise Services Panel Discussion Monetising Services for the 4th Industrial Revolution</p> <p>10:55 - Understanding the Latin America Consumer</p>	
11:00	<p>11:10 - Speaker Q&A </p> <p>11:25 - Lunch Break</p>	<p>11:25 - Lunch Break</p>
12:00		
13:00		<p>13:00 - Regulator Address 5G Spectrum Auctions to Ignite New Opportunities</p> <p>13:15 - Sponsor Address Preparing Spectrum Availabilities for 5G</p> <p>13:30 - Operator Address How Governments Can Support Operator Investments</p> <p>13:45 - Panel Discussion Unleashing Spectrum to Encourage 5G Opportunities</p>
14:00		<p>14:15 - Speaker Q&A </p> <p>14:30 - End of Latin America Digital Symposium Day 1</p>

Preparing the RAN? Network for 5G

10:00 - 10:15

Part 3 | Technologies Showcase: The Next-Generation Techs to Prepare the Network

- Transition planning: migration strategies from 3G, to 4G, LTE and 5G
- Open RAN: identifying opportunities for operators in the region
- Developing Open RAN standards to boost interoperability
- Ensuring network security: challenges and opportunities for the network

Sponsor Address | Developing the 5G Core

10:15 - 10:30

Part 3 | Technologies Showcase: The Next-Generation Techs to Prepare the Network

- Ensuring the network is 5G ready and 5G capable
- Delivering on network promises: ensuring 5G can really deliver
- Straight to SA? What is Latin America's route for 5G?
- Developing loud-native solutions to support the softwarisation of the network

From the Cloud to the Edge – Virtualised Services for the Network

10:30 - 10:45

Part 3 | Technologies Showcase: The Next-Generation Techs to Prepare the Network

- Virtualising the network to deliver new services
- Cloud-native solutions to ready the network for the next generation
- Straight to the edge: what are the edge computing opportunities for network operators in Latin America?

AI And Automation Panel Discussion | Transforming Operations with Big Data and Automation

10:45 - 11:15

Part 3 | Technologies Showcase: The Next-Generation Techs to Prepare the Network

- The future is data
- Network automation: transforming network management through data and AI
- Understanding the customer: how data and automation can revolutionise how we understand and serve the customer

Speaker Q&A |

11:15 - 11:30

Part 3 | Technologies Showcase: The Next-Generation Techs to Prepare the Network

In this live session, our speakers will come together to answer your questions.

Lunch Break

11:30 - 13:00

Connecting Rural Communities |

13:00 - 13:15

Part 4 | Delivering Connectivity to Rural Communities

- Mapping networks to understand connectivity gaps
- Digitising rural communities: bringing populations into the digital era
- From the consumer to rural enterprise: will connected agriculture boost rural connectivity?

Sponsor Address | Transforming Connected Services

13:15 - 13:30

Part 4 | Delivering Connectivity to Rural Communities

- Support telecom operators to expand services beyond high-population density areas
- ROI's for rural communities: boosting opportunities to monetise populations
- Supporting the consumer and enterprise: how connectivity will drive untold opportunities

Panel Discussion | National Roaming to Boost Rural Connectivity

13:30 - 14:00

Part 4 | Delivering Connectivity to Rural Communities

Satellite and Ground Communications for Next-Generation Connectivity

14:00 - 14:15

Part 4 | Delivering Connectivity to Rural Communities

Speaker Q&A |

14:15 - 14:30

Part 4 | Delivering Connectivity to Rural Communities

In this live session, our speakers will come together to answer your questions.

End of Latin America Digital Symposium Day 2

14:30 - 14:35

Part 4 | Delivering Connectivity to Rural Communities

SCHEDULE

DIGITAL SYMPOSIUM DAY 2: 5G LATIN AMERICA - 29/04/2021

5G Latin America

27 & 29 April 2021
Digital Symposium

TIME	PART 3 TECHNOLOGIES SHOWCASE: THE NEXT-GENERATION TECHS TO PREPARE THE NETWORK	PART 4 DELIVERING CONNECTIVITY TO RURAL COMMUNITIES
10:00	<p>10:00 - Preparing the RAN? Network for 5G</p> <p>10:15 - Sponsor Address Developing the 5G Core</p> <p>10:30 - From the Cloud to the Edge – Virtualised Services for the Network</p> <p>10:45 - AI And Automation Panel Discussion Transforming Operations with Big Data and Automation</p>	
11:00	<p>11:15 - Speaker Q&A </p> <p>11:30 - Lunch Break</p>	11:30 - Lunch Break
12:00		
13:00		<p>13:00 - Connecting Rural Communities </p> <p>13:15 - Sponsor Address Transforming Connected Services</p> <p>13:30 - Panel Discussion National Roaming to Boost Rural Connectivity</p>
14:00		<p>14:00 - Satellite and Ground Communications for Next-Generation Connectivity</p> <p>14:15 - Speaker Q&A </p> <p>14:30 - End of Latin America Digital Symposium Day 2</p>
