

Chair's Welcome and Opening Remarks

10:00am - 10:05am
Cloud Native World Digital Symposium

Participants

Jennifer Pigg Clark - Principal Analyst, Heavy Reading

Service Provider Address: Lessons Learned from Early Cloud Native Deployments

10:05am - 10:20am
Cloud Native World Digital Symposium

- Ongoing PoC with the world's most multivendor 5G SA setup
- Identifying the most innovative use cases

Participants

Kashif Mahmood - Senior Research Scientist, Telenor

Sponsor Address: RedHat

10:20am - 10:30am
Cloud Native World Digital Symposium

Participants

Fatih Nar - Chief Architect - Telco Partner Solutions, Red Hat

Panel Discussion: How Does the Move in Cloud Native usher in changes for management and automation?

10:30am - 11:10am
Cloud Native World Digital Symposium

- What role will Kubernetes play in the service provider environment?
- Lifecycle management in a DevOps world
- When worlds collide – managing virtual machines and containers
- Zero trust security in a containerised environment
- Interoperability in management and orchestration

Participants

Moderator: Jennifer Pigg Clark - Principal Analyst, Heavy Reading

Panelist: Sana Tariq - Principal Technology Architect: E2E Orchestration, Telus

Panelist: Kishore Raja - Vice President; Engineering Strategy, Boingo Wireless

Panelist: Fatih Nar - Chief Architect - Telco Partner Solutions, Red Hat

Panelist: Yaron Sverdlov - General Manager: Digital Delivery Division, Amdocs

Live Speaker Q&A

11:10am - 11:25am
Cloud Native World Digital Symposium

Participants

Jennifer Pigg Clark - Principal Analyst, Heavy Reading

Break

11:25am - 11:45am
Cloud Native World Digital Symposium

Service Provider Address: The Road Towards a Cloud Native Telco

11:45am - 12:00pm
Cloud Native World Digital Symposium

- Why should telcos adapt for cloud native?
- Key technologies on the road to cloud native
- Building a cloud native culture

Participants

Yuki Kasuya - Research Engineer, KDDI

Sponsor Address: NetNumber

12:00pm - 12:10pm
Cloud Native World Digital Symposium

Participants

Steve Legge - Chief Operating Officer, NetNumber

Panel Discussion: CI/CD and the Continuously Evolving Future of Telco Cloud-Native Networks

12:10pm - 12:50pm
Cloud Native World Digital Symposium

- How is CI/CD different from DevOps?
- What are the immediate drivers and benefits of implementing CI/CD?
- How will CI/CD impact telco service evolution and software design lifecycles?
- What are the implementation challenges?
- How does CI/CD impact platform design requirements?
- Does CI/CD impact customer experience?
- When will CI/CD be commercially viable?

Participants

Moderator: Jim Hodges - Chief Analyst, Cloud & Security, Heavy Reading

Panelist: Beth Cohen - Distinguished Member of Technical Staff, NFV/SDN Network Product Strategy, Verizon

Panelist: Ildiko Vancsa - Ecosystem Technical Lead, OpenStack Foundation

Panelist: Andy Pope - Head of Consulting, Kenzan, an Amdocs Company

Panelist: Mike Ouellette - Senior Director, Engineering Operations, NetNumber

Live Speaker Q&A

12:50pm - 1:05pm
Cloud Native World Digital Symposium

Participants

Jim Hodges - Chief Analyst, Cloud & Security, Heavy Reading

Close of Cloud Native World Digital Symposium 2021

1:05pm - 1:10pm
Cloud Native World Digital Symposium

SCHEDULE

CLOUD NATIVE WORLD DIGITAL SYMPOSIUM - 25/03/2021

Cloud Native World

25 March 2021 (EST)
Digital Symposium
Online
