

# SESSIONS

DAY 1 - 29/09/2020

TechXLR8 Asia

29 September - 1 October 2020  
Virtual Event

## Chairperson's Opening

11:00 - 11:20  
TechXLR8 Asia Headliners

### Participants

**Speaker: Harriet Green OBE** - Board Member, Singapore Economic Development Board

## Opening Remarks

11:00 - 11:10  
accelerateHER Asia

### Participants

**Laura Stebbing** - Co-CEO, accelerateHER  
**Poppy Gaye** - Founder & Co-CEO, accelerateHER

## Opening Remarks: Seoul is now on the top 20 startup ecosystems

11:00 - 11:10  
Elevating Founders Asia

### Participants

**Jaewook Jeong** - Head, Invest Seoul Center

## Driving Entrepreneurship Among More Women in Asia

11:10 - 11:40  
accelerateHER Asia

We're bringing together two leaders passionate about women entrepreneurship for an unmissable discussion delving into how we can encourage more women into tech and business to build a future full of innovative solutions.

### Participants

**Ankiti Bose** - Co-Founder & CEO, Zilingo  
**Linda Rottenberg** - Co-Founder & CEO, Endeavor

## Fireside Chat: The Impact of Covid-19 on the Startup Ecosystem. What's changed for Founders & Investors?

11:10 - 11:35  
Elevating Founders Asia

A fireside chat with: Aziza Sheerin, General Assembly, in conversation with Arnaud Bonzom, Founder & CEO at Black Mangroves

### Participants

**Arnaud Bonzom** - Founder & CEO, Black Mangroves  
**Aziza Sheerin** - Regional Director, General Assembly

## Panel: Digital Transformation in the time of COVID-19 – Driving Acceleration for the Long Term

11:20 - 11:50  
TechXLR8 Asia Headliners

- Looking at the rapid adoption of digital ways of working and how to overcome challenges of the crisis with emerging technologies such as AI, Edge, Cloud and 5G
- How leaders can help shift their business models and strategies to adapt to the new normal
- Overcoming security threats within your business due to COVID-19

### Participants

**Panelist: Sau Sheong Chang** - CEO, SP Digital, SP Group

**Panelist: Claus Nehmzow** - Chief Innovation Officer, Eastern Pacific Shipping Pte Ltd.

**Panelist: Kwee Tong Heng** - Head of Engineering and Customer Solutions, SPTel

**Moderator: Adrian Ho** - Principal Analyst - Asia, Middle East & Africa Enterprise, Omdia

## Networking Break

11:35 - 11:40  
Elevating Founders Asia

## Pitch Offs - HealthTech

11:40 - 12:00  
Elevating Founders Asia

Tune in as we showcase the people and companies who we've highlighted to be the rising stars in the HealthTech sector

## Expediting Digitalization and Proving Resilience of Malaysia's Economy during the COVID-19 Pandemic

11:50 - 12:10  
TechXLR8 Asia Headliners

- Companies are on high gear embarking on digitalisation, both front end e-commerce as well as back end operations and supply chain
- Malaysian talents have been able to work from home enabling many businesses to continue in operations particularly the Global Business Services industry.
- Malaysia Digital Economy Corporation focuses on digital skill talent development and gig economy development particularly during this time
- Despite lockdown, we have been engaging with investors actively due to sustained or increase interest from investors to setup regional digital services operations in Malaysia due to the resilience in work from home capability and talent.

### Participants

**Speaker: Hew Wee Choong** - Vice President, Malaysia Digital Economy Corporation (MDEC)

## Lessons in Leadership & Teamwork

11:50 - 12:20  
accelerateHER Asia

In a deep-dive interview on what works in leadership and teamwork – we explore the experiences as a woman who has led a world-leading engineering business, tapping into the advice and wisdom Anu has for the next generation of women leaders.

### Participants

**Anu Aga** - Chairperson, Thermax Social Initiative Foundation

**Hayaatun Sillem CBE** - Chief Executive, Royal Academy of Engineering

# SESSIONS

DAY 1 - 29/09/2020

TechXLR8 Asia

29 September - 1 October 2020  
Virtual Event

---

## The Future of Investing in Healthcare: Europe VS APAC

12:00 - 12:40  
Elevating Founders Asia

Dr Alex Zhavoronkov, Founder & CEO of Insilico Medicine, is joined by Dr Ling Ge, Chief European Representative at Tencent, and Dr Timothy Low, Head of Healthcare Investments at Pavillion Capital to explore and compare the future of investing in healthcare.

### Participants

**Moderator: Alex Zhavoronkov** - Founder & CEO, Insilico Medicine

**Ling Ge** - General Manager & Chief European Representative, Tencent

**Timothy Low** - Head of Healthcare Investments, Pavillion Capital

---

## Smart Barrier free city with accessibility

12:00 - 12:30  
Exhibitors Showcase

### Presented by: Dot Incorporation

15% of world's population are special needs. People. Dot incorporation research and development for them during 5 years. Smart City solution and technology is make the human's life better, but How is the special needs people's life? Going better? It is not.

---

## Sustainable Digital Transformation, Collaboration Models & Success of Big Data analytics in organizations

12:10 - 12:30  
TechXLR8 Asia Headliners

As the world is moving towards unprecedented times, the need for digital transformation is now more pressing than ever. To embark on the digitalization journey, it is necessary to understand the business goals, the pitfalls that one might encounter on the way, the stakeholders that you need to collaborate with, knowledge of business analytics, right infrastructure, right strategy in terms of people and most importantly educate and upskill every employee in the organization to cope with the transformational journey.

### Participants

**Speaker: Chulanga Perera** - Chief Information Officer, Daimler India Commercial Vehicles Pvt Ltd

---

## A Playbook for High Growth Scalability

12:30 - 12:40  
TechXLR8 Asia Headliners

In this session, we spotlight exceptional women founders from two parts of the world. We'll delve into triumphs and challenges overcome on the road to scaling and expanding into new markets. We'll conclude by exploring the networks women founders can leverage to expand their tech enterprises in new regions.

---

## e-KYC based on Blockchain

12:30 - 13:00  
Exhibitors Showcase

### Presented by: Valico Co.,Ltd.

e-KYC contains information that can prove the identity of a user in various ways, and aims to start this in an environment where the user can lead and control it. A network related to e-KYC is formed by making full use of the characteristics of the blockchain, in which users can prove themselves by crossing various services and countries with a single identity authentication. This will be a very important part in many areas. Among them, it will be very innovative in finance.

---

## Networking Lunch Break

13:00 - 13:10

---

## Reimagining the Future: What Singapore's Smart Nation Can Be

13:10 - 13:30  
AI Summit Singapore

The last few months have demonstrated our collective capacity to be kind to one another in times of crisis. What if this were to be part of our smart cities in the future?

Using Singapore's Smart Nation initiative as a starting point, this presentation will propose how we can reimagine our smart cities to do so, in addition to the many ways that AI now enable cities to tackle urban issues and to create a more liveable, workable and sustainable city.

This presentation will also show how we can do so practically. It will draw on the presenter's research into the future of work, and how it is being applied to help workers in disruption, crisis, and eventually recovery.

### Participants

**King Wang Poon** - Director of the Lee Kuan Yew Centre for Innovative Cities, Singapore University of Technology and Design

---

## The Race to #Zero Carbon: IoT as an Enabler for more Efficient Energy Use

13:10 - 13:30  
IoT World Asia

### Participants

**Speaker: Quentin Vaquette** - Co-Founder and Managing Director, ENGIE Factory Asia-Pacific

---

## How can we future-proof AR/VR for Enterprise adoption?

13:10 - 14:00  
AR & VR World

- Navigating internal infrastructure challenges, including legacy infrastructure and lack of data standards hindering widescale ARVR adoption
- Through managing expectations of content creation and immersion, how can companies account for the immaturity of tech, whilst preparing for opportunities of the future?
- Facilitating organizational readiness: Understand the opportunities and fears of ARVR as a tool for progression among different company teams

### Participants

**Rich Rabbitz** - Principal Member of Engineering Staff, Lockheed Martin Aeronautics

---

## Creating Real Impact as a Woman in Tech

13:10 - 13:50  
accelerateHER Asia

Beyond verbal commitments on gender parity, what are the actions we all need to take to encourage more women into leadership roles in tech companies? We speak to women founders who have been true trailblazers in their industries to unpack how they achieved real change. We'll also discuss what can be done to encourage more women to follow their lead and engineer, innovate and lead in the tech industry.

In partnership with SheLovesTech

### Participants

**Hazel Savage** - Co-Founder & CEO, Musii

**Ayesha Khanna** - Co-Founder & CEO, ADDO AI

**Leanne Robers** - Co-Founder, SheLovesTech

**Zean Vo** - Co-Founder & Director, Browzzin

---

## FinTech Opening Keynote

13:10 - 13:15  
Elevating Founders Asia

Co-Founder & CEO of StashAway, Michele Ferrario, joins us to give the opening introduction to the FinTech stream.

### Participants

**Michele Ferrario** - Co-Founder & CEO, StashAway

# SESSIONS

DAY 1 - 29/09/2020

TechXLR8 Asia

29 September - 1 October 2020  
Virtual Event

## Pitch Offs - FinTech

13:15 - 14:05

Elevating Founders Asia

Tune in as we showcase the people and companies who we've highlighted to be the rising stars in the FinTech sector

## Driving AI Success with a Solid Data Strategy: Data Perpetration, Integration and Governance

13:30 - 13:50

AI Summit Singapore

- Data is the essential fuel that powers AI. Companies are modernising their data infrastructure to turn the massive volumes of data into bottom-line results. Ensuring high-quality, diverse, and dynamic data inputs is a key factor in AI success.
- How to align data strategies with corporate goals and priorities to ensure accountability and successful delivery? How can we translate data insights into business value

## Participants

**Matt Parisi** - Senior Product Marketing Manager, Tealium

## Disrupting the Property Industry with Data

13:30 - 13:50

IoT World Asia

As the property and construction industry move towards digitisation, the challenges with creating meaningful outcomes from data has become the new frontier, driving change faster than the last five decades. From the ideation of new development schemes, to analysing the needs of residents, and all the way through to the construction and management of buildings, data is enabling more clarity and insights into the least digitised industry on the planet. Find out how data is driving new opportunities in automating the Property and Construction sectors.

## Participants

**Speaker: Pankaj Srivastava** - Lendlease Digital's CTO and SVP Digital Technology, Engineering & Delivery, Lendlease

## Air For Life: Tomorrows Technology Today

13:30 - 14:00

Exhibitors Showcase

**Presented by: Air For Life UK LTD**

Overview of current products, mission statement, understand technology behind AFL and future product releases/collaborations

## Insurance in Post Lockdown Environment : Consumer Behaviour and Digital Technologies

13:50 - 14:10

AI Summit Singapore

- How does the insurance sector tackle the pandemic crisis with digital technologies?
- AI and ML enabled technologies have increased customer engagement and enhanced customer royalty.
- How to ensure effective operations in the age of big data and AI?

## Participants

**KV Dipu** - President & Head of Operations, Communities & Customer Experience, India, Bajaj Allianz General Insurance

## Panel: Harmonising the IoT Ecosystem: Creating Long Term IoT Interoperability and Growth in Asia

13:50 - 14:30

IoT World Asia

- Addressing challenges with market fragmentation, managing the proliferation and large number of ecosystem and platform players
- Partnerships playing a fundamental role for successful projects, through working with the right businesses and partners to scale successful concepts

## Participants

**Panelist: Chen-Yu Lee (Leo) Ph.D.** - Director, Taipei Smart City Project Management Office

**Moderator: Terence Wong** - Marketing Development Director, APAC, GSMA

**Panelist: Melvin Tan** - Vice President, Head of Innovation, City Developments Limited

## Telling their story: How ICRC navigated their ARVR opportunity

14:00 - 14:15

AR & VR World

- Exploring deployment difficulties and experiences when reaching wide-scale audiences
- Scaling with a limited budget: From trialling to execution, how to build crucial buy-in to experimental use cases and navigating KPI's
- Building an in-house team vs. working with external partners

## Participants

**Christian Rouffaer** - Head of Unit - Virtual Reality, International Committee of the Red Cross

## Building a Billion Dollar Business

14:00 - 14:30

accelerateHER Asia

Kiran Mazumdar-Shaw is a pioneer of the biotechnology industry in India and the founder of the country's leading biotechnology enterprise, Biocon. We tap into her exceptional wisdom and experience to find out how to build a billion-dollar business.

## Participants

**Kiran Mazumdar-Shaw** - Executive Chairperson, Biocon

**Amy Kazmin** - South Asia Bureau Chief, Financial Times

## Adaptive Gateway - first step in enabling digital twin for industry 4.0

14:00 - 14:30

Exhibitors Showcase

**Presented by: A4BEE**

INDUSTRIAL Internet Of Things GATEWAY PLATFORM  
The lack of unified way of gathering and pushing data from equipment in production environment leads to:  
- Reduced Flexibility and Scaling  
- High Cost of Integration  
- Long Time to Market for Industry 4.0 initiatives  
Let us share with you how to make Data Connectivity Simplified for manufacturing, how to address challenges mentions above.

Join our presentation of the adaptive Single Gateway Platform - a gateway for your digital twin journey.

## AiSP Cybersecurity Awareness Workshop: Digitalisation - Risk for ICT Industry

14:00 - 16:00

Association Showcase

**Presented by: Association of Information Security Professionals (AiSP)**

Register [here](#).

Presentation: **Data Breach & Data Privacy** by Adrian Oey, EXCO Member, AiSP

Presentation: **Cyber Developments in ICT** by David Siah, EXCO Member, AiSP

Presentation: **Governance, Risk and Compliance in Cyber Security** by Phoram Mehta, President, ISACA Singapore Chapter

---

## Panel Discussion: The State of FinTech , how Singapore continues to position itself as a clear leader

14:05 - 14:50  
Elevating Founders Asia

Nick Hungerford, Partner at Portag3 leads the conversation with Jennifer Ho of Integra Partners, Ren Liang Tan of Eight Roads, and Ryan Collins of MassMutual Ventures on the FinTech ecosystem in Singapore, and how it continues to position itself as a clear leader

### Participants

**Moderator: Nick Hungerford** - Partner, Portag3

**Jennifer Ho** - Principal, Integra Partners

**Ren Liang Tan** - Associate, Eight Roads

**Ryan Collins** - Managing Director, MassMutual Ventures

---

## Afternoon Networking Break

14:10 - 15:10  
AI Summit Singapore

---

## Networking Break

14:15 - 15:10  
AR & VR World

---

## Afternoon Networking Break

14:30 - 15:10  
IoT World Asia

---

## The New Frontier in HealthTech

14:30 - 15:00  
accelerateHER Asia

In this session we're in conversation with two pioneering founders in healthtech, exploring how this year has fast-tracked advancements in this space. We'll delve into the crucial role tech is playing in the battle against Covid - 19 and spotlight the technologies transforming how we access and experience healthcare now and in the future.

### Participants

**Grace Park** - Co-Founder & President, DocDoc

**Shannon Shibata-Germanos** - Founder, Lacuna Advisors

**Nadine Hachach-Haram** - Co-Founder, Proximie

---

## Enabling a Cloud Ecosystem with Software Defined Networking

14:30 - 15:00  
Exhibitors Showcase

**Presented by: SPTel Pte. Ltd.**

The current challenging business climate has driven organisations to look towards digitalisation to ensure business continuity and lead recovery. With more services going online and increased importance of virtual experiences, your network partner needs to be resilient, deliver scalable services on demand to cater to fluctuating demands and able to support you with proactive cyber security. Learn more in this session as we discuss software defined networking and network functions virtualization for improved business agility in the new digital age.

---

## Networking Break

14:50 - 15:00  
Elevating Founders Asia

---

## Investing to Build the New Normal

15:00 - 15:30  
accelerateHER Asia

From online delivery services to edtech and traveltech, in this session we discover the start-ups and scale ups investors are backing to build the new normal

### Participants

**Anisha Singh** - Founding Partner, She Capital

**Spencer Crawley** - Co-Founder & General Partner, firstminute capital

**Pocket Sun** - Co-Founder & Managing Partner, SoGal Ventures

---

## Bedrock Demo

15:00 - 15:30  
Exhibitors Showcase

**Presented by: BasisAI**

BasisAI launched their end to end machine learning platform, Bedrock, earlier this year. Bedrock helps data-driven enterprises deploy responsible AI with a faster time to impact.

Join BasisAI's Product and Data Science leaders for a live demo of the platform.

Learn how to:

- Setup and manage ML projects using Bedrock
  - Build training pipelines and manage ML models
  - Collaborate with different stakeholders using role based permissions
  - Deploy ML models in a safe and scalable manner
- 

## Smart Cities Opening Keynote

15:00 - 15:05  
Elevating Founders Asia

Co-Founder of Fincy, and Chief Technology Officer at GBCI Ventures, Vanessa Koh joins us to give the introduction to the Elevating Founders SmartCities Stream

### Participants

**Vanessa Koh** - CTO, GBCI Ventures

---

## Pitch Offs - Smart Cities

15:05 - 15:35  
Elevating Founders Asia

Tune in as we showcase the people and companies who we've highlighted to be the rising stars in the SmartCities sector

---

## Youth & AI - The Skills the World Needs

15:10 - 15:30  
AI Summit Singapore

- How can young people seize the opportunities of AI and the benefits of innovation? What are the effects of AI on youth?
  - How can we engage the future generations as partners in shaping a positive AI-empowered future?
- 

### Participants

**Harriet Green OBE** - Board Member, Singapore Economic Development Board

---

## Post-pandemic technology trends in China

15:10 - 15:30  
IoT World Asia

- Mapping China's technology landscape in a pandemic world
  - Industry trends that are here to stay
  - Market opportunities to keep an eye out for
- 

### Participants

**Speaker: William Chuang** - Asian Equity Portfolio Manager, Industrial Automation and AI specialist, AXA Investment Managers Asia

---

## Scaling out training and development with ARVR

15:10 - 15:30  
AR & VR World

- Showcase the ROI: from saving costs to sustainability, explore how one-time investment into hardware can enable training at half the price
- Ensuring that pre-generated data, ether from previous examples or virtual training, become the key aid for learning and development
- Where can connectivity and remote working setback the use of ARVR.

### Participants

**Wanda Manmoth** - Commercial Development Manager, KLM

## AutoML and Data Science Automation Optimising Equity Valuation

15:30 - 15:50  
AI Summit Singapore

- What are the key challenges of adopting AI and ML in investment banking? Compared to the traditional valuation methods, what are the benefits of using ML models?
- How do ML solutions address the transparency and trust issues? What are the steps taken to ensure users understand and trust the results of automated valuation?
- What are the lessons learned by using AutoML to build, create and deploy ML models?

### Participants

**Tommy Tan** - CEO, TC Capital

## How Industry 4.0 Can Help Build Resiliency

15:30 - 15:50  
IoT World Asia

- How are technologies like cobots being used for social distancing?
- Coming back to work: Embracing the new normal with new technologies

### Participants

**Speaker: Fabian Schmahl** - President & CEO, thyssenkrupp Bilstein of America, Inc.

## Panel: Social ARVR and re-imagining the future of work

15:30 - 16:00  
AR & VR World

- Next generation of working habits and remote working – does augmented social platforms hold the key for enhanced workplace culture amongst remote teams? Can immersive technologies allow remote workers to interact creatively on design and product?
- Visualising opportunity: How can ARVR technology become a visual aid for showcasing design and ensuring crucial buy-in from external partners
- Recognising ARVR as a tool for enhancing human creativity in design and revealing new possibilities through workplace experimentation in immersive environments

### Participants

**Asha Easton** - Knowledge Transfer Manager - Immersive Experience, KTN

**Wanda Manmoth** - Commercial Development Manager, KLM

**Miquel Vidal** - Innovation & Programme Manager, CBRE

## Pre-integrating LoRaWAN IOT solutions powered by OrbiWAN

15:30 - 16:00  
Exhibitors Showcase

### Presented by: Rochade - Orbiwise

In order to make IoT applications easy and quick to deploy, Orbiwise has created OrbiWAN Edge, a stand-alone version of his carrier-grade solution OrbiWAN. It can be installed together with any application on an industrial computer to build a private LoRaWAN network and IoT solution without the need for special skills, or heavy maintenance. We will give examples of pre-integrated solutions that can address industry 4.0 or smart city's challenges in a professional yet simple way.

## Panel Discussion: The World's Smartest City - Technology, Tenacity, Transformation

15:35 - 16:05  
Elevating Founders Asia

Valerie Lim, Head of Programmes at IoT Tribe is joined by Douglas Gan of GBCI Ventures, and Ryan Jin at EcoLabs Centre for Innovation & Energy to discuss how the technology and tenacity has lead to the transformation to being named at the World's Smartest City

### Participants

**Moderator: Valerie Lim** - Head of Programmes, Singapore, IoT Tribe

**Douglas Gan** - Group CEO & Co-Founder, GBCI Ventures

**Ryan Jin** - Lead (Smart Cities and Future Mobility), EcoLabs Centre of Innovation for Energy

### Closing Remarks

15:40 - 15:50  
accelerateHER Asia

### Participants

**Laura Stebbing** - Co-CEO, accelerateHER

**Poppy Gaye** - Founder & Co-CEO, accelerateHER

## AI Revolutionising the Future of Banking: Innovation, Risk and Governance

15:50 - 16:15  
AI Summit Singapore

- AI enables banks to identify purchasing patterns, look at multiple data points to match products with the right individuals and have a much more intelligent ways to engage with customers. To enable AI-led transformation, leaders need to reimagine the processes, identify use cases and rethink the basic relationship between employees and machines.
- What are the current AI applications in use for employees and customers? What are the benefits and implications?
- How do banks build trust among customers, employees, and the partners across its ecosystem? What steps are taken to ensure greater and trusted use of AI?

### Participants

**Spiridon Zarkov** - Director of Data Science and AI Labs, Visa

**Anubhav Narang** - AI & Data Driven Solutions Lead, Visa

---

## Leveraging IoT and Geofencing to detect and intercept Cargo Crime

15:50 - 16:10  
IoT World Asia

- Applying IoT and Geofencing to detect Cargo Crime; Use Cases and Potential
- The limitations of today's technology
- The hidden cost of operational complexity
- Conclusion

### Participants

**Speaker: Niels Hoornweg** - Innovation Manager & Head of the Southeast Asia Pacific Regional Innovation Hub, Kuehne + Nagel

---

## How can interoperability, collaboration and standardization accelerate ARVR adoption?

16:00 - 16:30  
AR & VR World

- Exploring how cross-platform partnership across hardware and software components can develop new applications
- How to clearly define the opportunity for enterprise R&D teams to trial innovative technology, and create a competitive edge?
- interoperability framework for content creation, improving ease of access and promoting best practice
- Exploring opportunities for ARVR designed SDK's that can work across platforms

### Participants

**Amy Peck** - CEO, EndeavorVR

**Jan-Erik Vinje** - Founder, Open AR Cloud

**Miquel Vidal** - Innovation & Programme Manager, CBRE

**Farooq Yaqub** - Electrification Engineer & Immersive Technologies Lead, Ford Motor Company

---

### Networking Break

16:05 - 16:15  
Elevating Founders Asia

---

## Accelerating AI Adoption in Financial Services: Ethics, Trust & Public Confidence

16:15 - 16:40  
AI Summit Singapore

Artificial intelligence is at an inflection point - where what's slowing widespread adoption is trust. Rebuilding trust in AI requires taking a responsible approach to developing and using the technology. This couldn't be more pertinent for the financial services industry, with banking institutions coming under scrutiny for use of 'black box' AI systems and issues pertaining to fairness and bias. Machine learning systems that are designed with in-built AI governance are more transparent, explainable and fair, with the ability to detect and correct unintended biases that can creep into these systems.

The financial services industry is undergoing a seismic shift in data-driven innovation, yet truly data-driven innovation in banking will require two fundamental changes. With digital banking, hyper-personalisation will need to happen in real time to support mobile experiences. At the same time, model risk management will need to evolve to address model risks to retain customer trust in the use of AI. Hear how organisations are building responsible AI systems, with in-built AI governance for a range of use cases across FSI.

### Participants

**Feng-Yuan Liu** - Co-founder, CEO, BasisAI

---

## EdTech Opening Keynote

16:15 - 16:20  
Elevating Founders Asia

Deborah Tan, CEO of SmartUp, joins us to give the introductory note for EdTech stream at Elevating Founders Asia

### Participants

**Deborah Tan** - CEO, SmartUp

---

## Pitch Offs - EdTech

16:20 - 16:40  
Elevating Founders Asia

Tune in as we showcase the people and companies who we've highlighted to be the rising stars in the EdTech sector

---

## Fireside Chat - The Future of Education: what's the new model?

16:40 - 17:05  
Elevating Founders Asia

A fireside chat with: Esther Wojcicki in conversation with Deborah Tan, SmartUp

### Participants

**Esther Wojcicki** - Founder, Palo Alto High School Media Arts Center; Stanford University Media X

**Deborah Tan** - CEO, SmartUp

---

## Networking Break

17:05 - 17:15  
Elevating Founders Asia

---

## Pitch Offs - RetailTech

17:15 - 17:35  
Elevating Founders Asia

Tune in as we showcase the people and companies who we've highlighted to be the rising stars in the RetailTech sector

---

## Closing Remarks - Day 1

17:40 - 17:45  
Elevating Founders Asia

Tune in for a recap of the first day at Elevating Founders Asia, and what's in store for day two!

### Participants

**Christina Lee** - Founder & CEO, Global Green Connect

# SCHEDULE

## Unlocking the Power of Deep Video Analytics

11:00 - 11:20

TechXLR8 Asia Headliners

- Deep models can help deep understanding of massive volume of videos
- Applications of deep video analytics
- How to gain actionable insights in real-time?

### Participants

**Eric Lo** - Associate Professor from the Department of Computer Science and Engineering (CSE), The Chinese University of Hong Kong

## How technology is driving business innovation

11:00 - 12:00

Association Showcase

**Presented by: why innovation!**

Register [here](#)

Let's have a look at how new technologies are disrupting industries, and more importantly how companies are changing their business models to adapt to it. From incremental to radical innovations the capabilities of organizations to adapt quickly and create new digital products and services is defining tomorrow's leaders!

### Participants

**Laurent Basset** - Innovation Practice Lead, why innovation!

## AgriTech/Tech for Good Opening Keynote

11:00 - 11:15

Elevating Founders Asia

Dr. Dalal Alghawas of Big Idea Ventures, joins us to give the introductory note for the AgriTech stream at Elevating Founders Asia

### Participants

**Dalal Alghawas** - Programme Director, Big Idea Ventures

## Pitch Offs - AgriTech & Tech for Good

11:15 - 11:30

Elevating Founders Asia

Tune in as we showcase the people and companies who we've highlighted to be the rising stars in the AgriTech and Tech for Good sector

## Keynote Panel: Shaping the Economy and the Workforce in the Post Pandemic World with AI

11:20 - 11:50

TechXLR8 Asia Headliners

- What will the post-pandemic economy look like? Can we boost economy growth with AI and digital technologies?
- What will be the potential impact of AI at workplace? Can we ensure it automates, enhances and create new jobs at the same time?
- What are the key role AI and data play in sustaining businesses during and after the pandemic? How to build the right infrastructure to leverage data and maximise AI's potential?
- Panellists:

### Participants

**Moderator: Bob Gill** - General Manager, Southeast Asia, ARC Advisory Group

**Panelist: King Wang Poon** - Director of the Lee Kuan Yew Centre for Innovative Cities, Singapore University of Technology and Design

**Panelist: Michael Fung** - Deputy CEO, SkillsFuture

**Panelist: Marty Sprinzen** - Co-founder, CEO, Vantiq

## Panel Discussion: Food Security, Sustainability, and Supply Chain Management

11:30 - 12:00

Elevating Founders Asia

Frank Meehan, Co-Founder of Equilibrium World and SparkLabs Cultiv8 Ventures, is joined by Daniele Benatoff of Planet Farms and Jonathan Knapp of GoComet where they'll be exploring everything from the rise of new farming methods to sustainability and how companies should improve their processes

### Participants

**Moderator: Frank Meehan** - Co-Founder, Equilibrium World and SparkLabs Cultiv8 Ventures

**Daniele Benatoff** - Co-Founder & Co-CEO, Planet Farms

**Jonathan Knapp** - Director, GoComet

## How the maritime industry begins to innovate through digital technology

11:50 - 12:10

TechXLR8 Asia Headliners

### Participants

**Speaker: Claus Nehmzow** - Chief Innovation Officer, Eastern Pacific Shipping Pte Ltd.

## Practical AI Roadmap: Effective design

12:10 - 12:40

TechXLR8 Asia Headliners

### Participants

**Speaker: Ravinder Singh** - Chief Information & Innovation Officer, Tata Singapore Airlines (Air Vistara)

### Break

12:40 - 13:10

## Develop World Leading AI Workforce : Singapore's Talent Strategy

13:10 - 13:30

AI Summit Singapore

- Businesses need a talent strategy to scale up AI projects and ensure AI success. What is the shortfall in AI talent and manpower? How do businesses upskill the current workforce and make the transition to a new era of human and machine collaboration?
- Talent strategies for different industry sectors, from bank & finance, logistics & supply chain, healthcare
- Attract international high-skilled talents and grow global talent network

### Participants

**Michael Fung** - Deputy CEO, SkillsFuture

## Becoming a Smart Factory on Wheels: How Highly Automated and IoT-Connected Vehicles are Enabling Farmers to Improve Productivity

13:10 - 13:30  
IoT World Asia

- Technologies such as machine-to-machine communications and big data will help farmers make efficient decisions despite having fewer resources
- How IoT and advanced technologies enable farmers to keep up with an increasing global food demand as well as increase sustainability, yield and profitability
- Tackling burdens of changing weather conditions and a shrinking pool of skilled rural labor to dramatically improve what a farmer can singlehandedly achieve
- Critical best practices for using connected technology to improve the user experience, a key component for implementing overall IoT strategy to drive adoption in agriculture

### Participants

**Speaker: Deanna Kovar** - Director, Operator Station, John Dere

## Curated Round-Table: Surviving and Thriving

13:10 - 13:55  
accelerateHER Asia

As part of a closed door discussion, we are bringing together a select group of APAC's senior corporate leaders and innovators to delve into what it means to lead an organisation purposefully in 2020. We'll explore the common challenges leaders have encountered this year and crucially, we'll share the novel solutions our community is identifying to weather the storm and thrive in uncertain times.

## Panel Discussion: Looking into the Investment Landscape: The Highlights, Challenges, and Unanswered Questions

13:10 - 13:55  
Elevating Founders Asia

Parveen Dhanda at TechNation is joined by Hannah Seal of Index Ventures, Nalin Patel of PitchBook Data, and Julie Kainz of Salesforce Ventures for a discussion on the investment landscape post Covid-19

### Participants

**Moderator: Parveen Dhanda** - Head of Programmes, Tech Nation

**Hannah Seal** - Partner, Index Ventures

**Julie Kainz** - Senior Associate, Salesforce Ventures

**Nalin Patel** - EMEA Private Capital Analyst, PitchBook

## Engaging with External Ecosystem: A Collaborative Approach to Ensure AI Success

13:30 - 13:50  
AI Summit Singapore

Driving up the value of AI relies on building a collaborative ecosystem internally and externally.

- Innovate together with AI start-ups to maintain competitive advantages
- Support AI start-ups to build and grow businesses with technical and financial resources, as well as business know-how

### Participants

**Gennie Neo** - Venturing and Incubation Lead - Asia Pacific, Rolls-Royce

## Panel: Boom or Bust – Which Emerging Technologies will Revolutionize APAC's Digital Transformation Journey

13:30 - 14:10  
IoT World Asia

- Blockchain and AI as catalysts to improve business processes and drive competitive advantage by making projects more efficient at a faster pace
- IoT technologies such as digital twin and AR/VR, fundamentally shifting industry dynamics and pushing decision-making to a new level
- 5G playing a part in facilitating businesses and projects

### Participants

**Moderator: Aaron Tan** - Executive Editor, APAC, Computer Weekly, TechTarget

**Panelist: Aren Sungjemrenla** - Senior Innovation Manager, DHL

**Panelist: Amit Sharma** - Amit Sharma, Director, Operations Excellence, Engineering & Innovation, APAC Logistics, DB Schenker

**Panelist: Regine Chan** - Consultant, McKinsey & Company

## Hughes Webinar Series

13:30 - 14:00  
Exhibitors Showcase

### Presented by HUGHES

Daily Webinars on the latest trends in Community WiFi, 5G & Satellite Backhaul and Mobility. Hughes Webinars aim to provide attendee with insights on how advancement in technology is continuing to improve the business case for offering services using Satellite networks.

## Where Hospitality Trends and Technology Intersect

13:30 - 14:30  
Association Showcase

**Presented by: FHA - HoReCa**

**Register [here](#)**

Technology is the backbone of the hospitality industry. As technology innovation moves very fast, how do you know which trends are worth investing in and which will be a distant memory? Hear our speaker discuss the technologies that went from trend to tried-and-true within their business.

## Panel: How Do We Ensure Privacy, Security and Ethics When Adopting AI in Cloud Computing?

13:50 - 14:30

AI Summit Singapore

- A lot of the data that organisations are trying to model is core to their business and includes sensitive personal, financial, health and other crucial information. How do we protect data when running AI in cloud?
- What does modern cloud security infrastructure need to consider?

### Participants

**Panelist: Masato Hoshino** - Head of Asia and Representative Director & President of Japan, Colt Technology Services

**Panelist: Mark Findlay** - Director, Centre for AI & Data Governance, Singapore Management University

**Panelist: Maria Montes** - Data Protection Officer, Head of Artificial Intelligence and Data Policy, UnionBank

**Moderator: Nina Xiang** - Founder, China Money Network

## Air For Life: Networking

14:00 - 14:30

Exhibitors Showcase

### Presented by Air For Life UK LTD

Discuss current international distributors, seeking for new suppliers exclusive and non exclusive. Taking orders, questions.

## Fireside Chat: How can startups become unicorns and how is it possible during Covid-19?

14:00 - 14:25

Elevating Founders Asia

A fireside chat with: Brian MacMahon, Founder of ExpertDOJO, in conversation with Jonathan Hung, Co-Managing Partner of Unicorn Venture Partners

### Participants

**Brian MacMahon** - Founder, Expert DOJO

**Jonathan Hung** - Co-Managing Partner, Unicorn Ventures

## Teaching Machines to see

14:10 - 14:30

IoT World Asia

- Overview of Computer vision at Facebook
- Latest advances in Computer Vision
- Path to self-supervised learning

### Participants

**Speaker: Manohar Paluri** - Director, Facebook AI, Facebook

## Curated Round-Table: Fundraising During a Crisis

14:10 - 14:55

accelerateHER Asia

We're gathering an inspiring group of Founders to talk about fundraising strategies during Covid-19. We'll be talking about successful approaches to investor outreach and exploring how founders are framing company narrative and pivoting product development to meet their goals in uncertain times.

## Networking Break

14:25 - 14:35

Elevating Founders Asia

## Afternoon Networking Break + VIP/Enterprise Roundtable Networking Session

14:30 - 15:10

AI Summit Singapore

2.30 - 3.10 pm Emerging Technologies (5G, AI, ML, Edge and Cloud) and how they Complement each other to drive Digital Transformation and IoT processes

### Participants

**Roundtable Leader: Bob Gill** - General Manager, Southeast Asia, ARC Advisory Group

## Workshop: Achieving Corporate Digital Transformation Goals with Low Code Development and Real Time, Event-Driven Platform

14:30 - 15:30

AI Summit Singapore Project Lab

Digital transformation is a process of leveraging technologies and tools to enhance workflow and serve customers better. However this is never straightforward. IT teams often find themselves overwhelmed by demands for new app development. Join this workshop to learn:

- How to relieve workload of the developers and use low code tools to achieve organisational digital transformation goals? How to empower business users to build their own applications without relying on IT?  
*Steve Goh, VP of APAC, What is Vantiq and Our Technology – 15min*
- Understand some of the many different ways real-time applications are being utilised across different industries.  
*Use cases video demo: "Project Q" and "Smart Building Softbank" – 20min*
- Open Discussion / Q&A – 15min

### Participants

**Steve Goh** - VP of APAC, Vantiq

## Networking break + VIP/Enterprise Roundtable Networking Session

14:30 - 15:10

IoT World Asia

2.30 - 3.10 pm SGT Emerging Technologies (5G, AI, ML, Edge and Cloud) and how they Complement each other to drive Digital Transformation and IoT processes

### Participants

**Roundtable Leader: Bob Gill** - General Manager, Southeast Asia, ARC Advisory Group

### Bedrock Demo

14:30 - 15:00  
Exhibitors Showcase

**Presented by: BasisAI**

BasisAI launched their end to end machine learning platform, Bedrock, earlier this year. Bedrock helps data-driven enterprises deploy responsible AI with a faster time to impact.

Join BasisAI's Product and Data Science leaders for a live demo of the platform.

Learn how to:

- Setup and manage ML projects using Bedrock
- Build training pipelines and manage ML models
- Collaborate with different stakeholders using role based permissions
- Deploy ML models in a safe and scalable manner

### From Challenge to Opportunity: Hospitality Technology in a Post-COVID World

14:30 - 15:30  
Association Showcase

**Presented by: FHA - HoReCa**

**Register [here](#)**

The Covid-19 pandemic may have provided many challenges to the hospitality industry, but a plethora of opportunities has also unfolded including more efficient ways to work with your team, better communication with your customer and more.

### Elevating Founders Asia Final

14:35 - 14:50  
Elevating Founders Asia

### Be Digital Ready on a Secured Network

15:00 - 15:30  
Exhibitors Showcase

**Presented by: SPTel Pte. Ltd.**

With organisations shifting towards conducting more business digitally, exposure to cyber threats is bound to increase. How resilient is your business network and can it defend your digital infrastructure from evolving cyber threats? Are your network security functions able to adapt at speed and at scale? Join us at this webinar to gain insights on the latest cyber threats landscape, impacts of security breaches and best practices to protect your organisation against threats in the digital age.

### Artificial Intelligence in Human Resource Management

15:10 - 15:30  
AI Summit Singapore

- This session will cover how Artificial Intelligence is used in Human Resource Management.
- How artificial intelligence is used in recruitment process like resume screening, personalised technical test, interview process etc using machine learning and computer vision.
- AI for Employee performance management
- AI for Employee engagement
- AI for resource allocation and optimization
- Employee onboarding and personalised experience
- Personalised training and skill development

#### Participants

**Mathew Joseph** - Head of Artificial Intelligence Labs, CIMB Bank

### Artificial Intelligence in Human Resource Management

15:10 - 15:30  
IoT World Asia

- This session will cover how Artificial Intelligence is used in Human Resource Management.
- How artificial intelligence is used in recruitment process like resume screening, personalised technical test, interview process etc using machine learning and computer vision.
- AI for Employee performance management
- AI for Employee engagement
- AI for resource allocation and optimization
- Employee onboarding and personalised experience
- Personalised training and skill development

#### Participants

**Speaker: Mathew Joseph** - Head of Artificial Intelligence Labs, CIMB Bank

### Curated Round-Table: Shaping the Future of Tech with a Gender Lens

15:10 - 15:55  
accelerateHER Asia

Be part of our group of change-makers. We're delving into the tangible actions the tech community needs to take now to attract and retain more women in the industry and in turn help to develop tech products and services that appeal to a diverse range of businesses and individuals.

### Panel: Utilizing Smart Data and Analytics to Enable Better Decision Making and Improving your Business

15:30 - 16:10  
AI Summit Singapore

- What are the standards for connectivity and data systems? Who owns the data?
- Facilitating informed decisions strategically with data analytics at a faster pace

#### Participants

**Panelist: Franco Chiam** - Digital and Innovation Lead, South East Asia, Daimler South East Asia

**Moderator: Yogita Kanesis** - Head of Research Operations, OMDIA

**Panelist: Edwin Cheang** - VP Strategic Partnerships, ENGIE Factory

**Panelist: Tomasz Kośmider** - Co-founder and CIO, A4BEE, Architects for Business

**Panelist: Akshaya Prakash** - Director - Digital Supply Chain & J&J Vision Supply Chain Technology (AsPac), Johnson & Johnson

### Panel: Living in a Data World – Utilizing Smart Data and Analytics to Enable Better Decision Making and Improving your Business

15:30 - 16:10  
IoT World Asia

- What are the standards for connectivity and data systems? Who owns the data?
- Facilitating informed decisions strategically with data analytics at a faster pace

#### Participants

**Moderator: Yogita Kanesis** - Head of Research Operations, OMDIA

**Speaker: Franco Chiam** - Digital and Innovation Lead, South East Asia, Daimler South East Asia

**Speaker: Edwin Cheang** - VP Strategic Partnerships, ENGIE Factory

**Speaker: Tomasz Kośmider** - Co-founder and CIO, A4BEE, Architects for Business

---

## Evolution & opportunities for LoRaWAN based IOT solutions

15:30 - 16:00  
Exhibitors Showcase

**Presented by: Rochade - Orbiwise**

LoRaWAN standard is now established as part of the 5G IoT ecosystem. Public networks are widely available, and it is possible to deploy global solutions to support IoT related businesses. Big traction is also seen on LoRaWAN private networks that are the only affordable low-power wide-area solution when the internet is not an option, or when the business case requires frugal deployment, or for remote isolated sites, among other examples. Testimonies from fellow panelists will illustrate the present and future potentials for tackling Smart Cities, Industry 4.0, and Precise Agriculture challenges in a more sustainable way.

---

## Technological Innovation for Hospitality Sustainability Challenges

15:30 - 16:00  
Association Showcase

**Presented by: FHA - HoReCa**

**Register [here](#)**

The current pandemic has presented an opportunity to reset the pillars of a renewed sustainable industry. Commitment to a long-term sustainable business model and innovation system is one of the best ways to mitigate future external crisis to the tourism value chain.

---

## IoT & Digital Transformation

16:00 - 16:30  
Exhibitors Showcase

**Presented by: Monnit Korea**

Monnit Korea is a leading provider of IoT sensor technology. We will share the main characteristics of wireless sensors and importance of remote monitoring in industrial and commercial spheres.

---

## Revolutionizing the Fight Against Fraud and Money Laundering Through AI

16:10 - 16:30  
AI Summit Singapore

- Banks are the vanguard defence against fraud and money laundering. AI enables banks to prevent fraud before it happens through interpreting trend-based insights and new knowledge gained from unsupervised machine learning.
- Multilayered security strategy where AI is an additional layer of safeguard to better catch fraud and money laundering at a lower cost.

### Participants

**David Hardoon** - Senior Advisor for Data and Artificial Intelligence, UnionBank Philippines

---

## Revolutionizing the Fight Against Fraud and Money Laundering Through AI

16:10 - 16:30  
IoT World Asia

- Banks are the vanguard defence against fraud and money laundering. AI enables banks to prevent fraud before it happens through interpreting trend-based insights and new knowledge gained from unsupervised machine learning.
- Multilayered security strategy where AI is an additional layer of safeguard to better catch fraud and money laundering at a lower cost.

### Participants

## Embedding AI and Automation into Complex Manufacturing Processes

11:00 - 11:20  
AI Summit Singapore

- AI has been used in factories to automate processes, reduce critical errors, improve productivity and boost safety measures. How do businesses identify and validate use cases? How do they ensure data quality and gain actionable insights from the vast amount of data generated through different systems?
- In order to build trust in AI, engineers and workers need to understand why and how certain decisions or predictions have been made by the algorithms. What are the solutions to ensure complex models are interpretable?
- A big concern for manufacturers is the downtime. AI-enabled predictive maintenance can maximise the availability of critical systems and minimise the costs of repair and maintenance.

### Participants

**Terence Hung** - Chief of Future Intelligence Technologies, Rolls-Royce

## Blockchain in Production

11:00 - 11:20  
Blockchain Asia

### Participants

**Speaker: Maarten Ectors** - Chief Digital Officer, GI, Legal and General

## Preparing for the Digital Future through Business Transformation

11:00 - 11:30  
Exhibitors Showcase

**Presented by: SPTel Pte. Ltd.**

The current challenging business climate has driven organisations to look towards digital transformation to emerge from the Covid-19 crisis and prepare for recovery. However as organisations shift focus towards digitalisation, exposure to cyber threats is bound to increase. How can organisations leverage the flexibility and agility that digitalisation affords without compromising on their security?

This sharing track covers how you can use IoTaaS and Edge Cloud on a dynamic and defensible network to remodel and accelerate business transformation, while keeping control of costs and cyber security.

## Growth Hacking and Marketing for Today's COVID Disrupted Economy

11:00 - 11:30  
Association Showcase

**Presented by: LEWIS**

**Pre-register [here](#)**

In today's marketing environment, it's the simple things that matter most. In fact, growth hacking can help make all the difference for businesses facing new market challenges.

This session will cover key trends of our current disrupted economy, how to map a consumer journey, and techniques and marketing tactics to take your business forward.

### Participants

**Fairil Yeo** - Vice President Transformation, LEWIS APAC

## Predictive AI and Improved Inter-connectivity Optimising Manufacturing

11:20 - 11:45  
AI Summit Singapore

Predictive and proactive systems driven by AI dramatically improve network planning and demand forecasting. The combination of ML, IoT and sensor data enables businesses to avoid risks, anticipate events and come up with solutions.

- Procure and process large datasets and extract useful information
- ML models are used to improve manufacturing yields, reduce downtime and maintenance costs
- Case studies

### Participants

**Srini Rangaswamy** - Global Head, Data Sciences & Advanced Analytics, GLOBALFOUNDRIES

**Srinivasan Ramarao** - Staff Analyst and solution Architect, GLOBALFOUNDRIES

## Blockchain in the Automotive Industry

11:20 - 11:40  
Blockchain Asia

- VUCA world as a context / an evolution of society / A Complex Multi-Functions Process
- What, why, when and how to use Blockchain?
- Transformation of Ecosystem network
- 3 steps to value
- Impact on digital transformation

### Participants

**Speaker: Odile Panciatici** - Blockchain Vice President, Groupe Renault

## Alior Bank Durable Medium Powered by Public Blockchain

11:40 - 12:00  
Blockchain Asia

- Regulator perspective
  - Durable medium definition
  - Problem genesis
- Alior Bank solution – objectives
- Solution customer experience
- Alior Bank perspective
  - Solution advantages
  - The process of implementation
  - Identified challenges and solutions
  - How the solution works

### Participants

**Speaker: Tomasz Sienicki** - Blockchain Strategy Lead, Alior Bank

## 5 Steps to Maximise your Chatbot's Potential in the New Normal

11:45 - 12:10  
AI Summit Singapore

- The conversational AI technology chosen today will dictate how fast enterprises can react in the future. Delivering conversational AI applications that evolve as the business grows requires a platform that is scalable, multi-lingual and device independent. One that can seamlessly integrate with back end systems and third-party applications. But equally important, one that is easy to use.
- In the past, creating conversational AI applications has required specialist skills, significant resources and a great deal of time. Teneo answers the question – what if there was a simpler way

### Participants

**Andy Peart** - Chief Marketing and Strategy Officer, Artificial Solutions

## Demonstrating the Value of Marketing with Digital Solutions in the B2B Technology World

11:45 - 12:30  
Association Showcase

**Presented by:** LEWIS

**Pre-register** [here](#)

COVID-19 has forced most companies to digitise their business in some ways to safeguard employees and better serve customers. As the rapid adoption of technology continues, organisations are looking to digital marketing solutions to protect the bottom line and drive new growth opportunities.

This panel discussion covers the current digital marketing landscape, consumption trends and behaviours, the role of technology, data privacy and trust, as well as the factors influencing decision making in today's complex business environment.

### Participants

**Speaker:** Vittorio Furlan - Head, Business Insights, ADA

**Speaker:** Tom Simpson - Senior Vice President, AdColony

**Speaker:** Charles Tidswell - Vice President, JAPAC, Socialbakers

## Fireside Chat: Creating a More Sustainable Healthcare Sector Using Blockchain Technology

12:00 - 12:20  
Blockchain Asia

- Reviewing early healthcare use-cases:
- Professional credentialing
- Billing management
- Personal health records (PHR)
- Pharmaceutical supply chain track-and-trace
- Is the rate of blockchain adoption dependent on blockchain, artificial intelligence and IoT interplay?

### Participants

**Moderator:** Sam Shah - Digital Health Technology Advisor, Digital Health Advisor

**Speaker:** Abdullah Albeyatti - Co-Founder and CEO of Medicalchain, Vice-Chair of the RCGP Yorkshire faculty, NHS Clinical Entrepreneur Fellow

## How Do We Govern Machines That Can Learn: Ethics, Risks & Governance

12:10 - 12:30  
AI Summit Singapore

- In 2019, the G20 in Osaka declared their commitments to a human-centred approach to AI. However, the details are paramount and there are many AI ethical dilemmas. What are the ethical and legal issues of AI? What are the risks and challenges facing industries? How does Singapore's Model AI Governance Framework provide guidance to businesses in addressing these issues?
- How do businesses ensure ethical considerations are being addressed at every stage of AI project? What are humans' roles in making sure AI systems are operating within human ethical and moral bounds?
- Case studies

### Participants

**Mark Findlay** - Director, Centre for AI & Data Governance, Singapore Management University

## Networking Break

12:20 - 13:00  
Blockchain Asia

## Networking break + VIP/Enterprise Roundtable Networking Session

12:30 - 13:30  
AI Summit Singapore

12.45 - 1.30 pm SGT ROUNDTABLE SESSION:  
Navigating Digital Transformation at a time of Change, Reshaping your Business and Adapting to the New Normal

### Participants

**Roundtable Leader:** Edwin Lin - Principal Consultant, OMDIA

## Epson Case Study Sharing Session by LEWIS Consumer Techniques for B2B Campaigns

12:45 - 13:00  
Association Showcase

**Presented by:** LEWIS

**Pre-register** [here](#)

Find out how global technology leader, Epson, put a spin on its B2B campaigns by adopting a more consumer-centric approach to social media across Southeast Asia resulting in an increase in social referrals, a rise in organic followers and engagement rate, as well as greater brand affinity.

## Driving New Efficiencies in the Telecommunications Sector Using Blockchain Technology

13:00 - 13:15  
Blockchain Asia

### Participants

**Speaker:** Shahar Steiff - Co-Chair - Carrier-Grade Workgroup Open Networking Foundation, AVP New Technologies, PCCW GLOBAL

## Panel: Which Blockchain Solution Should Enterprises Use?

13:15 - 13:35  
Blockchain Asia

- Public, private, semi-private and consortium blockchains: Features and differences
- Hybrid blockchains and their use cases
- Typical implementation processes
- Assessing platform features
- How will blockchain impact B2B and B2C relationships?

### Participants

**Moderator:** Mahesh Sashital - Co-Founder, Smartereum

**Panellist:** Yves-Michel Leporcher - Blockchain Technology Expert, Groupe Renault

**Panellist:** Alpesh Doshi - Founder and CEO, Fintricity

## SaaS Business – the Way that Companies are Responding to COVID-19

13:30 - 13:50  
AI Summit Singapore

The COVID-19 pandemic has changed not only our lifestyle but also the technology landscape. In the post COVID-19 era, digitalized service delivery becomes a new normal. Cloud scalability and the SaaS consumption billing model show its worth in the necessity of business continuity and work from home. In this session, the speaker will show why cloud and why SaaS.

### Participants

**Kieun Park** - CTO, Naver Cloud Platform

## Beyond the Hype, Maersk's Usage of Blockchain

13:35 - 14:00  
Blockchain Asia

- Maersk has been experimenting with blockchain technology for already a few years
- While a big hype in the beginning, we start seeing the technology adoption mature
- Blockchain has the potential to transform global trade!

### Participants

**Speaker: Daniel Mast** - Head of L&S Innovation & Tradelens Technology Strategy, Maersk

## AI Enhancing Hospital Efficiency in Combating Covid-19

13:50 - 14:10  
AI Summit Singapore

- The COVID-19 pandemic has put tremendous strain on the healthcare sector globally. AI operational applications enable hospital to deliver high utilisation of assets, low wait times for patients, and a plenty of available slots for patients seeking an appointment.
- AI combined with robotic process automation can analyse workflows, predict future care demand, and effectively allocate hospital resources. It will enable healthcare providers to streamline workflows, prioritise high-risks members in a timely manner and ensure better disease management.
- Training the next generation of AI talent

### Participants

**John Parvez** - Chief Information Officer, Hoan My Medical Corporation

## Increasing user engagement with PUBLISHsoft: Blockchain-based CMS

14:00 - 14:30  
Exhibitors Showcase

### Presented by: PUBLISH

PUBLISHsoft is a blockchain-based content management system for the next generation of digital media business. In this session, find out about PUBLISHsoft's all-in-one publishing platform and how we're using blockchain technology to increase reader engagement, combat misinformation, and generate more revenue.

## Adaptive Organization: Required Capabilities to Navigate the Digital Economy

14:00 - 15:00  
Association Showcase

### Presented by: why innovation!

To succeed in their Digital Transformation, enterprises need to operate a radical paradigm shift in terms of Operating Model. Beyond leveraging new technologies, adopting an Agile and Innovation culture, institutionalizing new ways of working to deliver more value to their customers, employees or partners, enterprises must revisit their strategic planning, budgeting and governance processes, as well as their support functions (e.g. talent management, supplier management processes, finance) to reduce organizational impediments to Agile.

### Participants

**Yann Hamon** - Managing Director, why innovation!

## Panel: How Do Human and Machine Hybrid Activities Shape the Future of Work?

14:10 - 14:40  
AI Summit Singapore

With AI, big data and automation, work is changing. Will the AI systems, with their superior speed, processing power, and strengths in many ways, replace humans in companies? How do businesses adapt to the change and lead the new way of working?

- Will AI manage human workers? Can algorithms accurately and fairly make assessments of workers' performance? What are the ethical implications of AI adoption in the workplace?
- How do government, industry, education agencies work together to equip current the workforce with the relevant skills needed in the era of AI? How to retain talents?
- What actions need to be taken to ensure fair, accurate, accountable and ethical AI solutions

### Participants

**Panellist: Angelica Salvi Del Pero** - Senior Advisor to Director for Employment, Labour and Social Affairs, OECD

**Panellist: Tonio Buonassisi** - Professor, Massachusetts Institute of Technology

**Panellist: Jason Widjaja** - Associate Director, Global Data Science (Artificial Intelligence), MSD

**Moderator: Max Smolaks** - Global Editor, AI Business

## Bedrock Demo

14:30 - 15:00  
Exhibitors Showcase

### Presented by: BasisAI

BasisAI launched their end to end machine learning platform, Bedrock, earlier this year. Bedrock helps data-driven enterprises deploy responsible AI with a faster time to impact.

Join BasisAI's Product and Data Science leaders for a live demo of the platform.

Learn how to:

- Setup and manage ML projects using Bedrock
- Build training pipelines and manage ML models
- Collaborate with different stakeholders using role based permissions
- Deploy ML models in a safe and scalable manner

## Developing AI Robots for Healthcare in Singapore

14:40 - 15:00  
AI Summit Singapore

- AI and robotics technologies could heavily contribute to the long-term sustainability and profitability of healthcare system. Successfully implementing them into organisation's business operations would improve precision of tasks, reduce workload of healthcare professionals and enable them to spend more time with patients and focus on more important activities.
- How are AI and robotics increasingly becoming an integral part of the healthcare ecosystem? What are the current applications of AI being developed and used in healthcare?
- Case studies

### Participants

**Shixing Yan** - Director, Corporate Labs & Product Development, NCS Group

## The Future of IoT Deployment for Smart Cities Post COVID-19

15:00 - 15:30  
Exhibitors Showcase

### Presented by: SPTel Pte. Ltd.

Covid-19 has been the greatest catalyst for digital transformation the world has seen. Digital readiness is no longer optional. As companies resume operations in the new normal, they need to automate processes to maintain collaboration and productivity among the mobile workforce. This is where IoT comes strongly into play, however, how can we accelerate adoption and deployment while reaping cost efficiencies? We discuss how IoT, Edge Cloud and Software Defined Networking can work hand in hand to unlock the potential of IoT deployment for Smart Cities.

# SCHEDULE

DAY 3 - 01/10/2020

TechXLR8 Asia

29 September - 1 October 2020  
Virtual Event
